ModMed Update

New Feature: Introducing Electronic Medical Claim Attachments — November 25, 2025

Dear Valued Clients:

We are pleased to inform you that beginning November 25, 2025, the Electronic Medical Claim Attachment feature will automatically be enabled for all ModMed® Practice Management clients.

The Electronic Medical Claim Attachment feature streamlines the claim process by allowing required documentation to be submitted electronically along with the claim. It helps reduce administrative burden, eliminate duplicate work, improve payer communication, and boost first-pass acceptance to accelerate reimbursements.

Please note: If you choose to utilize this feature, there is a fee of \$1.00 per claim with electronic attachments. The fee does not apply if you do not submit an electronic medical claim with an attachment.

Sincerely,

The ModMed Team

As part of the billing process often times supporting documentation is requested to process your claims.

ModMed has found a way for us to be able to attach that documentation at the time of claim submission, there is a \$1.00 per claim fee that Doctors' Advantage will absorb.

Please forward your paid invoice so that we may credit you on your next Doctors' Advantage month end.
